

Covid-19 is
contagious. It can
make you very sick.
We wear masks to
protect ourselves
and others.

I've seen face masks before.

Doctors, nurses and dentists
often wear face masks.

Masks help to protect us against
germs - if you wear it correctly.

1. Cover your nose and your mouth
2. Try to touch only the strings or elastics.
3. Wash your mask well before you wear it again.

My teacher could ask
that we stay 1 to 2
meters apart.

Don't touch
others.

Wave to greet.

Don't touch
others.

Wave to greet.

Wash between your fingers and under your nails whilst singing songs like "*If you're happy and you know it*". Rinse the foam off and dry your hands well.

Masks can be different. It is important to keep the mask on my face.

It may be very hot. It may feel funny. My mom and dad may feel uncomfortable too.

We shall wear the face masks to be safe.

Help each other.

Motivate each other.

Wear your mask.

Stay apart.

Stay apart.

Protect
yourself.

Protect others.

Wash your hands.

Protect
yourself.

Protect others.

Wash your hands.

Practice social distancing.

Do not share snacks and drinks.

Cover your
mouth and
nose.

Cover your
mouth and
nose.

Stay home
when you feel
poorly.

Practice wearing
a mask. Talk to
Mom and Dad
about your
worries.
