

Die skoelapper

vlerk

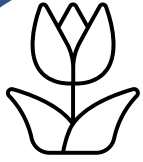

voelhoring

oog

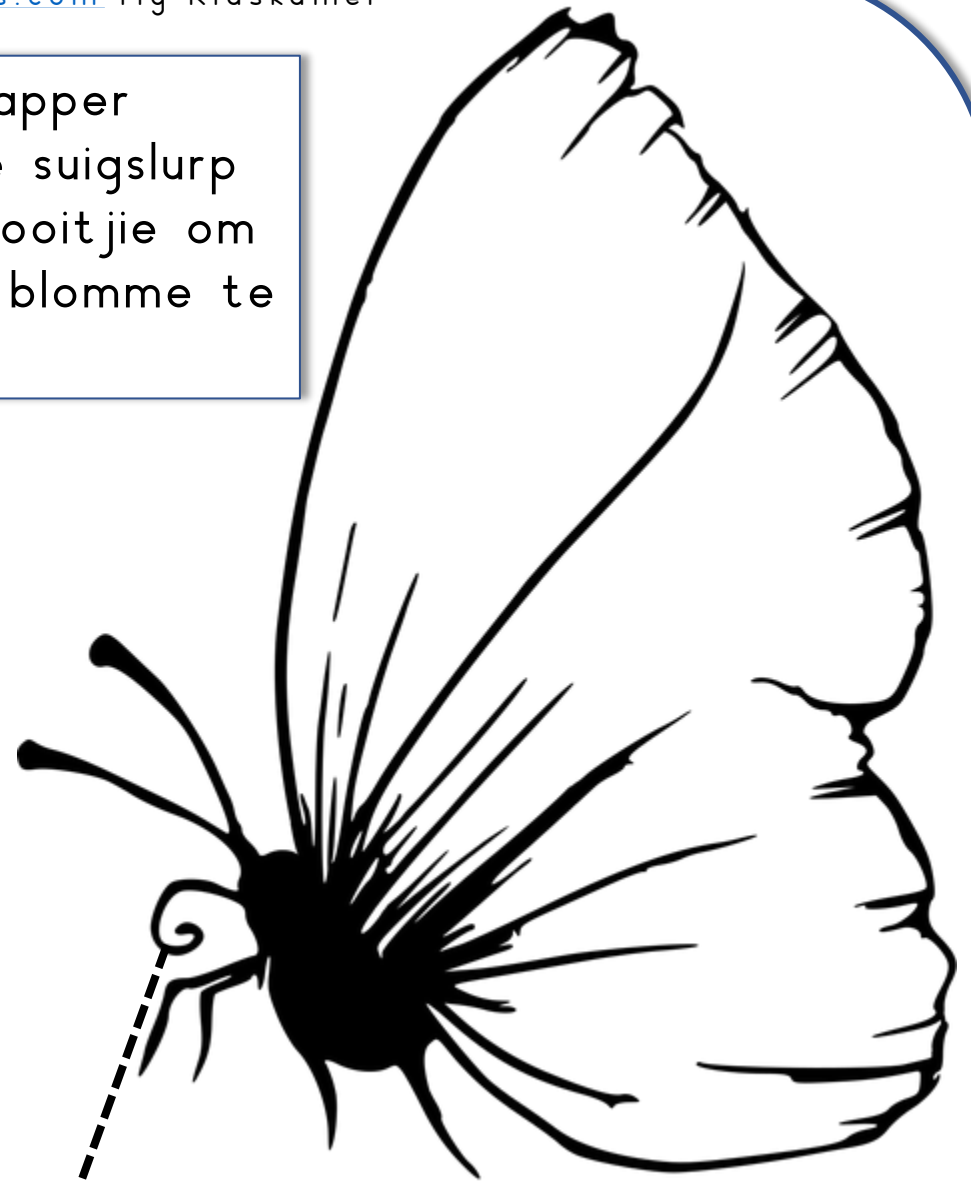

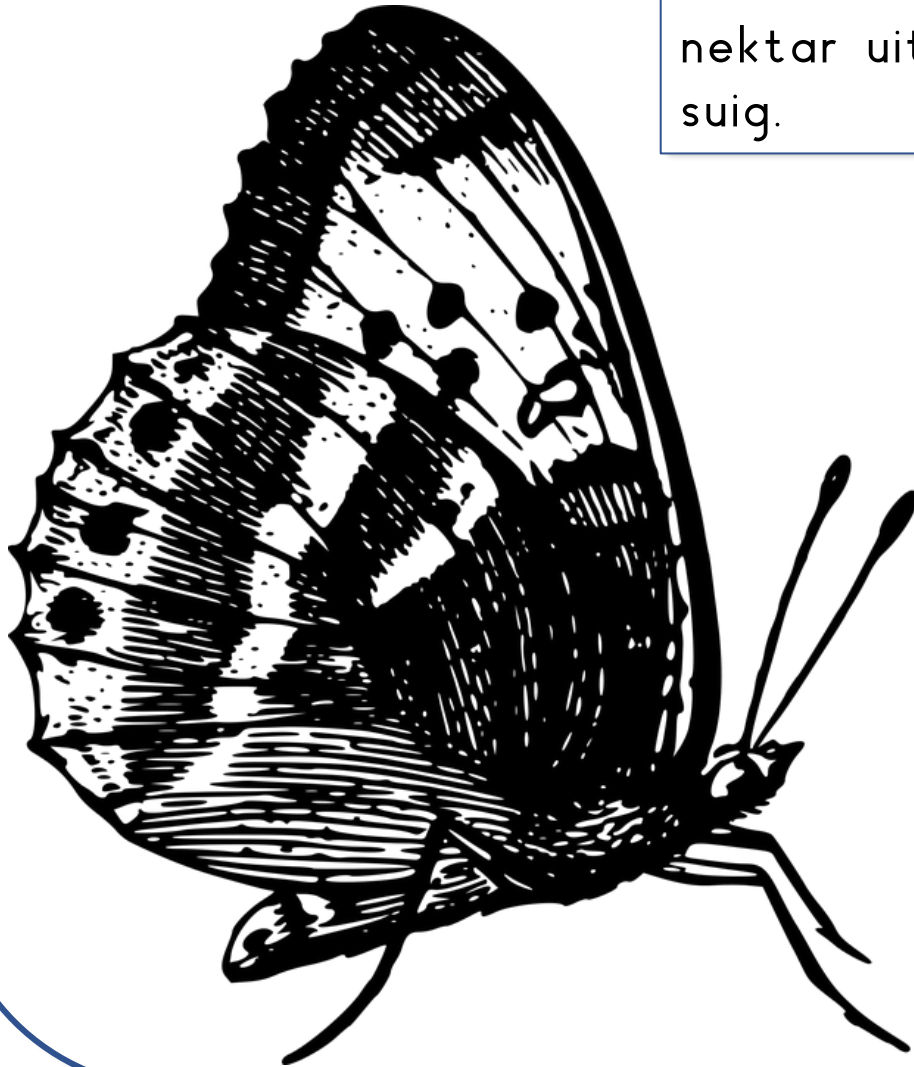

bors

agterlyf

Die vlerke het
duisende skubbe
wat soos poeier
afval wanneer
die skoelapper
se vlerke klap.

Die skoenlapper gebruik die suigslurp soos 'n strooitjie om nektar uit blomme te suig.

Die skoenlapper

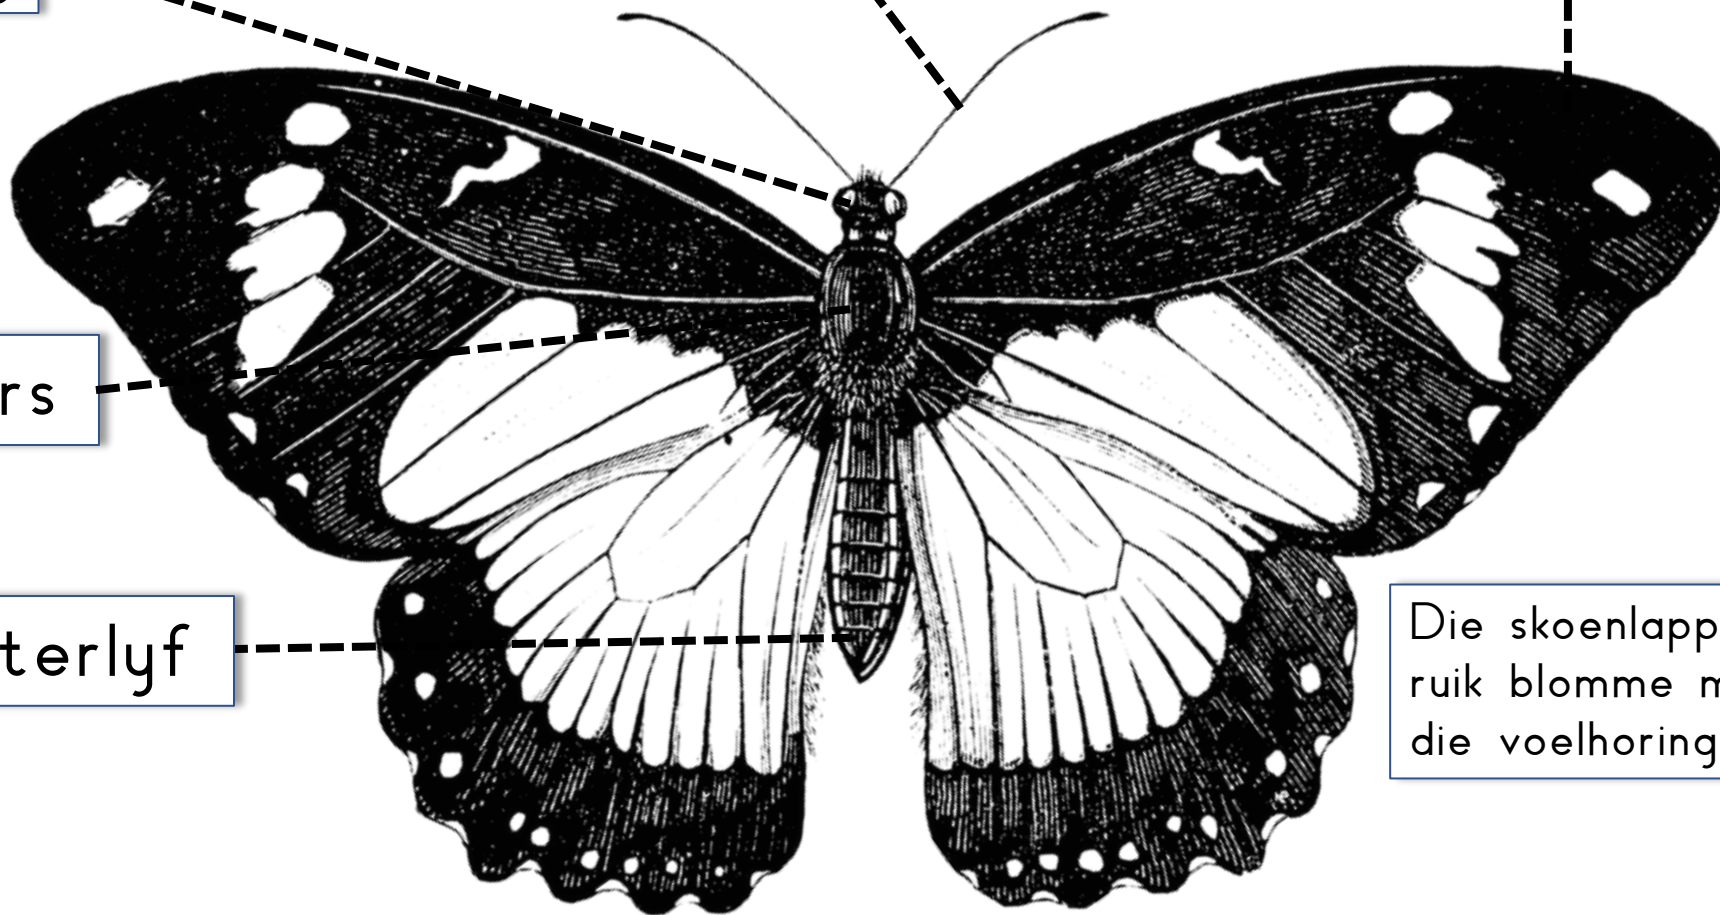

oog

voelhoring

vlerk

bors

agterlyf

Die skoenlapper
ruik blomme met
die voelhorings.

Vertel 'n bietjie meer van elke fase.
