SECTION A: COMPREHENSION**QUESTION 1**

Read the story and answer the questions in full sentences, unless otherwise indicated.

TUNA AND ORBIT!

1. Luna the moon fairy and Astro the astronaut have a very special job to do. Each day they twinkle down to earth to take a peep at all the children eating dinner. They check if each child is eating well and remembering their table manners.
2. Luna and Astro had spent all afternoon baking tasty, healthy meals for Tuna the cat and Orbit the dog. But Tuna was being fussy – she took one look at her bowl and swiped it away with her paw. It was the third time that week that she had refused to eat her food. “Oh Tuna!” sighed Luna as she scooped up the mess. “That’s naughty. You’re such a fusspot.”
3. But Tuna was already in her basket, dreaming of what she really wanted for dinner. Meanwhile Orbit was tucking in and gobbled up his dinner, sending food flying everywhere. “Oh Orbit!” groaned Astro. “You’re such a messy eater!” Orbit rushed off to play, knocking over the rest of his dinner and leaving lots of mess behind him!

4. That evening Orbit and Tuna were hungry again. "You should have eaten your dinner", scolded Luna, looking in the cupboard for something healthy. But Orbit and Tuna would only eat biscuits.
5. Then Astro thought of a bright idea. "If you two eat all your dinner without being fussy or making a mess, we will give you both a star to stick on a special chart. When you have filled up your chart with stars, you can choose a reward!" Orbit and Tuna thought this was a brilliant idea. The next evening they both tried hard to eat up all their food without making a mess. When they had finished, Astro and Luna gave Orbit and Tuna their first gold stars! They were really proud of them.
6. Before long, they were all enjoying meal times and the star charts were full. Soon it was reward time – a juicy bone for Orbit and a bowl of cream for Tuna!
